

PyxisCare Choice

Guiding you and your loved ones through today's complex health and wellness needs

Ensure your wishes and directives are understood and honored when you work with PyxisCare's experienced nurse client advocates. We partner with estate planning attorneys and financial planners to ensure clients are empowered to voice their wishes and build a plan that supports end-of-life decisions. Evaluating choices and intended outcomes ensures alignment between caregivers, clinicians and medical power of attorney.

How We Can Help

- Developing estate plans in concert with legal and financial counsel
- Changes in health status which prompt updates in legal and fiduciary choices.
- Properly documenting advanced directives and care plans as lives become complex and needs grow.

What You Can Expect

Pre-work document outlining options and decision points. Meeting to discuss options with medical power of attorney and other relevant parties. Detailed recap to be used in legal documents; follow-up meetings as necessary.

End of Life Directives: John & Sally's Story

Thanks to the PyxisCare Choice team we have a clear understanding of our end-of-life directives and a positive way to share our desires regarding future medical care with our children and other family members.”
