

Benefits Analysis

Guiding you and your loved ones through today's complex health and wellness needs

With costs of care rapidly escalating each year, many of our clients are searching for a partner in benefits management. Our team of industry veterans and experts review what benefits are available and next steps in regard to that. We identify a range of options, including assessing available government, corporate and disability benefits, resulting in money and time saving recommendations.

How We Can Help

- Evaluating eligibility and facilitating enrollment for disability and veteran (VA) benefits, waiver programs, social security and Medicare/Medicaid benefit options.
- Evaluate private and corporate benefits for maximum efficiency.
- Transitioning from pediatric to adult Medicaid benefits for the intellectually disabled

What You Can Expect

Actionable recommendations that could save you money and improve your level of care without requiring additional financial investment. Services available for families, individuals and corporate clients.

Finding Resources for a Disabled Child: Kathy's Story
